

L-Glutamine (100×)

Cat. No. FG201

Storage: at -20°C for one year

Description

L-Glutamine (100×) contains 200 mM of L-Glutamine. The solution has been filter-sterilized. It can be used for cell culture at a final concentration of 1×.

Note

To avoid repeated freezing and thawing, aliquot after first thawing; store at 2-8°C for two weeks, or at -20°C for one year.

For research use only, not for clinical diagnosis.
